INTRODUCTION

I. BACKGROUND

Except for some time in his student days, A. J. (Andrew Jackson) Greene was a lifelong resident of Watauga County, North Carolina. Born and reared on a farm near the western Watauga community of Mabel, he attended the old Cove Creek Academy; he later attended and was graduated from Appalachian Training School, later Appalachian State Teachers College, in Boone, North Carolina. After his graduation from A.T.S., he taught in public schools, later becoming a professor at the college from which he was graduated (Appalachian). He was a husband, a father of two sons and one daughter, a devout churchman (Baptist) and almost as devout a Democrat. During his young manhood he became a road supervisor, a Justice of the Peace, an ordained Baptist minister, a lawyer of sorts, and a Freemason. His early adulthood was spent farming and working at a store in Mabel, as well as teaching in several of the public schools throughout the county.

One of the most fascinating things about Greene is that he kept a diary from 1906, shortly before his A.T.S. graduation, until August of 1942—in fact, his last entry was the day before his death on August 18, 1942. Through this diary we learn much, not only about his life, thoughts, and amazingly wide interests, but about everyday life in Watauga County during the first half of the twentieth century. Entries from the early years provide much information concerning farm and rural life, as well as customs of the day; the later entries show us the workings not only of the community of that day, but of the college at which Greene taught. Since this man recorded the names of almost everyone with whom he came in contact, the diary is valuable also for local genealogical purposes.

II. THE PROBLEM

A. J. Greene’s handwritten diaries were donated to Appalachian State University by his daughter, Maxie Greene Edmisten, and are housed in its W. L. Eury Appalachian Collection; however, until these diaries were transcribed, microfilmed or in some way converted to another form in order to protect the originals, they were unavailable even to researchers. The reasons for this are twofold. First, their fragility, especially that of the older volumes, prevents use and handling. Second, and more important, the likelihood of loss dictates that they be protected, for some parts have apparently been taken when access was allowed. Therefore, other arrangements had to be made in order to allow the use of these valuable primary sources.

As the reasons for their protection are twofold, so at least are the possibilities for providing access to them. The first possibility is microfilming and/or photocopying them. While either of these solutions would be easier and less time-consuming, both present the problems of legibility
and usefulness. While Greene’s handwriting is reasonably legible, it can be difficult to read on occasion, especially when he writes personal names. Even the transcriber could not read everything, but it will be easier for other readers and researchers when it appears in type or print.

The second possibility for providing access is, of course, the one chosen by the transcriber/editor: transcription from handwriting to type. This not only makes the diaries more legible, but it allows editing and indexing to make them more useful. The diaries have been indexed throughout, with special attention to personal names; they have also been edited. I have inserted notes in order to explain certain words or terms or to take note of customs and practices.

## III. OTHER NOTES

Certain compromises and editorial decisions have been made in transcribing and indexing the Greene diaries. They are as follows:

1. **Names.**-- Greene’s use of personal names is inconsistent, to say the least. He may use a full name in one mention of a person, initials in another and surname only in yet another. When it has been possible to determine that these refer to the same person, they are indexed as such. When it has not been possible, they are treated as if they might be different individuals and indexed as if they were. In a few instances footnotes are inserted to provide an explanation of any problems encountered with the name.

2. **Handwriting, spelling, capitalization, etc.**-- While, as previously mentioned, Greene’s penmanship is reasonably legible, certain problems emerge as it relates to unfamiliar personal names. It is usually impossible to distinguish between his writing of the letter a and the letter o without knowing the name from other sources; for example, the name **Allie** could just as easily be **Ollie**, and **Ray** could just as easily be **Roy**--so the editor/indexer suggests checking all possible spellings when in doubt. The diarist also spells some words irregularly or in a uniformly incorrect manner (for example, he often spells the word through as though). The editor has tried to leave all spelling, punctuation, capitalization, hyphenization and separation or compounding of words just as Greene wrote them. However, in some cases, the term [sic] has been used after a word or term which is unusual or misspelled. In other cases added letters have been inserted in brackets ([]) to provide clarity. On occasion these problems are explained by footnotes.

3. **Subjects not indexed.**-- In some cases subjects or places occur so frequently that it would take too much space to index (although these diaries are very copiously indexed), or would not be necessary to index because they are on almost every page. These include:
   - Rural life
   - Farm life
   - Mabel, Silverstone, Beaver Dam, Zionville or most places in western Watauga County, N.C. (especially for the early years when Greene lived and taught in these places)
• Greene’s religious life (he attended Sunday School and church almost weekly). This includes singings, except singing contests.
  ▶ Greene’s reading and study (he read and studied almost every day).
  ▶ Boone, N.C. (especially in the later years when Greene lived there and taught at Appalachian).
• Greene’s health and moods (he mentioned these almost as often as the weather).

Mar. 11.-- Worked and went to Mabel. Men love to display their sense of vulgarity. The trend of their thoughts is clanish and uncouth.

Mar. 12.-- This has been a gloomy day. My soul seems to be in sympathy with the elements. Why is it that sadness grasps our very nature? Oh! The thought of anticipated pleasures drives me into despair! We would give much to recall one mistep in life. Our sins are on us and we must pay the just debt that we owe to nature and nature’s God.

Mar. 13.-- Today has been gloomy to my soul. With a strong determination it may be possible to outlive the defects in my nature. Let us pray that a benevolent Being may assauge [sic] our grief.

Sometimes we think that life is glorious and coated with many of the sweets, at others the deepest gloom and despondency creeps into our minds.

Mar. 31.-- Went to the store and the office. Was disappointed in my mail. The day has been unpleasant.

APRIL

Apr. 1.-- Some people are very desirous that their opinions shall hold on all occasions. If what they think to be true is false their feelings are stirred. A man is too apt to draw hasty conclusions. He often thinks that he is guardian of all property and chattels in the universe. The feeling that we have been outraged by promised go deep into the soul and cause us to become remorse.

Apr. 2.-- Eating is a good thing. There isn’t anything that delights a man’s heart more than palatable food. A wife who can cook well is apt to have the esteem of her husband. Good food makes his heart grow fonder and fonder. His delight stirs up energy and love in her bosom and makes her cheeks red and her eyes sparkling. Well-cooked food is conducive to longevity. A man is under many obligations to his wife. By her diligence his health is preserved and his daily life made replete with joy.

Apr. 3.-- It is amusing to be in Mabel and hear the rustics make their predictions. If these predictions should fail there will be intense madness. At the least suspicious people make a declaration and nothing can change them. Their judgments are as infallible as the Judge of the Universe.

Apr. 4.-- The day has been cool and clear. It makes our hearts sad--very sad--to believe that we have been deprived of some reward. Man is curious to make his belief known. He thinks
that a set stand must be taken in all matters, and further his opinion must be weighed in each thing that comes up.

**Apr. 5.--** Had a visit on Sunday morning from Rev. L. A. Wilson, Martin Thomas & Ada Warren. Was at Church and Sunday School at Union Baptist Church. Rev. L. A. Wilson preached a sermon from the theme, “Paul’s Journey”. Was tired at home and visited in the afternoon.

**Apr. 6.--** Fixed wood and then went to an auction sale at Mabel. There was a crowd present and some bigotry was displayed. The Crier must be weary in the region of the throat. He showed his ability to handle his text and ceremonies with regularity and effect.

**Apr. 7.--** Worked in the store today. The owner began the day snorting and muttering. He is awfully particular about little affairs. His soul would be grieved should a penny make its departure. Was made very glad by the happy remembrance of my friends. When one thinks that all have deserted him, it gives untold pleasure, renews energy and peerless ambition for a friend to treat you nicely.

**Apr. 8.--** Have had that ill, hateful feeling today. Engaged in labor the greater part of the morning. Went to see the sheriff about my taxes, but did not find him at home. Spent some time at the store. A man can hear a great deal that is useless at such a place. Arrived home weary and sick. Went to bed early.

**Apr. 9.--** Arose feeling unwell. After doing some work, was very much improved. Worked in the afternoon. Rested well at night.

**Apr. 10.--** Had a very pleasant time fenceing. Went to Mill and store. Returned home and spent the evening pleasantly.

**Apr. 11.--** Remained at home the entire day. Enjoyed myself reading German. Took a good nap. Was anxious over domestic relations. At night it was necessary to call a physician and a nurse to see my wife.

**Apr. 12.--** At 2:30 A.M. a boy was born into our home. In the morning a good nap was taken. This has been one of the most pleasant days that we have experienced in a long time. This little fellow changes the whole world to us. There is more inspiration to life and enjoy life. There were some visitors during the day.

**Apr. 13.--** Have done some work today. Went to the store and office. Have had a very pleasant time.

**Apr. 14.--** Spent a part of the day at work. Am somewhat amused and also angered at the littleness of some persons. It has truly been said, “Some will cut their nose off to spite their
faces”. This is what some peevish ones are trying to do. If a person wants to “show off,” just let them but[tt] their brains out. Self-destruction is a good remedy for haughtiness and stubbornness. Inasmuch as the devil must be beaten around the stump we are content to let them wear their raw hide out. Some think that it is real shrewdness to flout and pout at those who are their superiors and helpers. The time will come when there will be a retribution.

Apr. 15.-- This has been a misty day. Not much has been accomplished in the way of work. Some German was read with pleasure. A story of the pill factories at Detroit attracted my attention as fanciful. Many millions are made annually. The great public are crazed with their seemingly good effect. It may be that much distress is caused by an excessive use of these pills.

Apr. 16.-- The day has been spent in reading German and educational papers. A sketch of Dr. Franklin impressed me very much. His greatness will increase with time. The part that impressed me most particularly is his inventive talent. He was a great believer in experimenting and proving things. There are not many phases of life that he did not make some investigations. He was not very dogmatic in his belief and opinions. He was conservative to say the least.

Apr. 17.-- The day has afforded some pleasure and reflection. The store is an ideal place to learn. You are associated with many classes of people. Their likes and dislikes are ascertained. Many are curious in their ideas and general make up. Along many lines there are prejudices and cankerism. In fact, there are those who have a decided opinion of themselves. Discipline and drill will erase their roughness and coarseness.

Apr. 18.-- The day has been misty. There have been several about the store during the day. You have a variety in human nature. Some are very exquisite and others are vulgar. A showing of ideas is sometimes showered upon us-- a severe attestation of inward workings.

Apr. 19.-- The day has been fine. It is Easter Sunday and the first one in my life but what we have had some eggs. Of course it may not shorten my days but my feelings would have been lighter should we have had some eggs. It is my intention to arrange for a better time on the next event of this kind. Sunday school was attended and the lesson was “Jesus Anointed at Bethany”. We talked over the lesson for some time. At singing in the afternoon there was much hesitancy and delay. Finally it ended in a failure. We took a good nap of some duration in the evening. We feel somewhat refreshed.

Apr. 20.-- Went to Mabel in the morning and returned home and fenced the greater part of the day. It has been unusually warm today.

Apr. 21.-- Have suffered some from an attack of cold. Worked some on the farm and then had some dental work done. Saw several people in the town of Mabel. Received a postal through the mail.
Apr. 22.-- A severe attack of cold has caused me some trouble today. While digging in the field a cool wind blew. My physical condition has been bad generally speaking. Took some medicine at night.

Apr. 23.-- Worked in the store. Have been unwell during the entire day. The weather has been fine. Was made happy to get home to spend the night with my wife and baby.

Apr. 24.-- Have not been very well today. Had the pleasure of making some fence. It gives me delight to see the place in general fixed up. A man ought to take pride in buildings and home. It is a delight to read the life and works of Dr. Franklin, for his is a worthy career. He was the foremost thinker of his time. He did not take anything for sure but he endeavored to prove it. His ideas of education have held good until today. He even ventured to advance thoughts against the learned and scholastic world. He said that Greek and Latin would declined [sic] in popularity in the schools. Such is the case now. They have been set aside for more practical things of life.

Apr. 25.-- A severe storm raged this morning, but the afternoon was pretty. Was very much amused at Mabel at the storming crowd. There seemed to be a deal of noise about certain incidents and happenings. Why is this? It is the curiosity [sic] and inordinate to gossip.

Apr. 26.-- Attended Sunday School and singing. Was somewhat depressed in spirit. There comes a feeling of regret and the tears can hardly be retained. By courage we may be able to regain our former self. Why this regret? It seems to be bred within my nature.

Apr. 27.-- The day has not brought much to my notice. In fact my mind has not been in a retentive mood. A man’s mental condition is measured by his physical. A healthy organism is apt to give the mind sufficient force to produce good clear thinking. Without good health our thoughts are confused and without depth. A strong body is necessary to produce first class mental work.

Apr. 28.-- Notwithstanding some illness the day has afforded me some pleasure. How happy we are to reflect about old friends! It gives our mind delight. The trueness of a friend causes a pleasant sensation. Indeed it overshadows many regrets in the mind. These regrets haunt us day by day. It seems awful that we are often prostrate when so many friends are near to encourage and cheer us.

Apr. 29.-- This day has been spent in manual labor. In the evening we were impressed with the need of constant bathing. How can a man work in the dust day after day and not wash? Is not cleanliness next to godliness? Surely it must be. It is not only decent, but it is also comfortable. A clean person is agreeable and suited to company.

Apr. 30.-- The day has been cook and rainy. Attended church at Mabel. Had the pleasure of hearing Elder Bagby preach. He is an able man. The simplicity of his style strikes me with force. He is easy and direct. In fact he made an old text new. His temperance talk was clear and
forceful. There was a storm of wind in the evening. The temperature fell low and it snowed some. To see the snow on the green grass and leaves made me very gloomy.

**MAY**

**May 1.**-- The day has been cool. The morning was spent in writing and reading. Afternoon went to mill and office. There was some flirtation in Mabel. Returned home and read some in the papers. Charles Hagaman of Beaver Dams visited me. We had a pleasant time discussing and conversing upon various topics.

**May 2.**-- Have remained at home during the greater part of the day. My time has been spent in reading and writing. We do not know how valuable a diary may be. It is a record for those who come after you. Much valuable history is lost by not being recorded. It is our duty to keep a record of local events for those who come after us. It will be a source of interest and pride.

**May 3.**-- Fixed early this morning and went to a “Temperance Rally” on Beaver Dams. We arrived there about 9 o’clock. By the opening hour there was a large crowd of people present. Several speeches were made, then a good dinner was spread. At 3 o’clock Rev. E. F. Jones preached an able sermon. We scarcely ever hear so able a man. He is simple in style, forceful in logic, easy in delivery. In fact he is a complete man in many respects. We returned home across the Ridge. The sun shone hot and we became warm. We arrived home late. The day has been well-spent. Our friends have given us much encouragement and we feel more like doing work.

**May 4.**-- Began the day with labor. Did some hard work. Received my mail and read some. It is pleasant to lie down after a day’s work. It gives rest to the weary limbs.

**May 5.**-- The morning was spent in planting corn and beans. The afternoon was spent in reading and study. Geometry is a science that appeals not very strong to me. Of course it has inestimable value to those who love its construction. Language impresses me more than any other branch of knowledge. Education comes in as a strong second.

**May 6.**-- Today a strange and pathetic feeling has overridden my spirit. Why is this? We know not. It does come to us occasionally and tries our souls as if it were by fire. It must be an ordeal by which our imperfections are driven from us. In fact it seems that nothing can inhibit this distressing mood when it properly gets an absolute hold on us.

**May 7.**-- The day has been damp and cool. Went to Mabel and worked in the store. There was some gossip indulged in. You can hear almost any foolish thing that you desire.
May 8.-- Spent the morning at home. That lonesome feeling hovered over me and caused me to be despondent. Had the pleasure of visiting Mabel and seeing the loafers gather around the fireside. The day has been unusually cool and damp.

May 9.-- The day has been misty and cool. This morning some wood was cut. Had the pleasure of reading a good story. Afternoon went to J. H. Mast’s and spent awhile most enjoyable discussing Masonry. The time was profitable to me.

May 16.-- Spent the morning at labor. Fixed and went to Mabel. Had a very pleasant time. There were several stirring in the city.

May 17.-- Dressed and went to Zionville this morning. Had a very pleasant time on the way. There was a good temperance program rendered. The children recited well. Rev. E. F. Jones preached an able sermon. We had a good dinner. Talked with Walter E. Icenhour about his poems. Had a very good time the remainder of the evening. Returned from the Rally and spent a while with Dr. Greer. Was delighted to hear him read Shakespeare.

May 18.-- Spent the morning at work. Planted some sweet potatoes afternoon. Was delighted in reading Shakespeare. There isn’t anything that betters a man more than reading good books. They are a solace and an inspiration.

May 19.-- Did some work during the day. Spent the greater part in reading. “The Rape of Lucrece” is a most thrilling story. In the evening was very much impressed with religious thought. This is a question that is difficult to solve. Just what relations a man should have with his Maker is hard to determine. There is a relation that makes one feel immortal, one that gives a quickening conscience, one that prompts a generous act, surely there is hope for us.
May 20.-- Spent the morning in reading. Visited Mabel on business. Was made ashamed of a terrible gabber. It is sad that some can’t hold their tongues. Returned home and read until supper.

May 21.-- Went on the road this morning. We had some very interesting chat. At noon came home and hoed corn the remainder of the day.

May 22.-- Today has been spent in hoeing corn. On my return to the house was made glad by some mail. “The Howler” (?) delighted me. It caused a renewal of old pleasures.

May 23.-- Have been alone today in the cornfield. Returned to the house at the close of the day and took a good bath. It sure makes a man feel good.

May 24.-- Took my wife to visit her father. Went to Sunday School and also Church at the Methodist. Took dinner with T. M. Moretz. Returned home and drove the cows off of the mountain. Went to Mr. Warren’s and spent the night.

May 27.-- Hoed corn today. It was a good day for work. Had to stop in the evening on the account of rain.

May 28.-- Hoed corn until noon. Went to the store. One can hear all the clash that he wants. Am surprised that people are so selfish. Each desires to rise at the expense of the other.

June 3.-- Went to mill this morning. It has rained. Hoed some corn. Went to Mabel and saw several people. Returned home with the “blues”.

June 4.-- Remained at home the greater part of the day. Uncle Jack Greene was with us. Read some in “Pilgrim’s Progress”. It is an interesting book. Many experiences of the heart are recorded within its pages. They are universal experiences of man. The author must have had a higher power to guide him. A pilgrimage may be a rough road, but in the end all will be pleasantness and happiness.

June 5.-- Worked in the store. Had a pleasant day. Met Miss Mary Brown, a teacher. Heard T. P. Adams talk some. He has a good philosophy of life. A cheerful nature does make us happy. Mr. Walters spent the night with us.

June 24.-- Went to Mabel this morning. There was a large number listing taxes. It is amusing to hear some of them list. Returned home for dinner. Read in Theology. Am surprised

**July 2.--** Worked in the store today. One always has some experiences in human nature. There are some who want to show their high and egotisic [sic] knowledge of affairs. They show their ignorance and prejudices upon many important objects. People are seeking the unreal and mystic in all of their religious and secular duties.

**July 3.--** Did some minor duties this morning. Wrote some letters to friends. Went to mill and office afternoon. There were several hard rains.

**July 4.--** Did some calculating this morning. Went to church. Rev. L. A. Wilson preached an able sermon on the duties of the church. Had Rev. Mr. Wilson and Mr. Sidney Thomas with me for dinner.

July 6.-- Worked in the store today. Had notice of many things. What seems most curious to me is the desires of people. They seem suspicious of each other. Confidence has been lost, faith in one’s word has decreased and understanding in general has almost ceased to exist. How selfish we are! It is not what we have a right to, but what we can get our hands on. There ought to be a conscious revival in ethical truth. We need to be taught in a severe school of morals and virtue whereby we may have our pernicious inclinations tamed in the beauty of benevolence and love.

July 7.-- Spent the greater part of the morning at labor. The afternoon was spent in thinking upon different themes. The question arises why people are given children. The reason is two-fold. (1). To represent their parents when they shall have passed away. (2). To have something immortal to train. Another intricate point is duty of parents to children, and duty of children to parents. Just how to train and instruct a child is a vital point. A wise judgment is necessary to carry out the mandates of parental obligation. Again home training is a vital point in a person’s career. What ought and ought not to be taught.

Would it not be well for us to go back to the established authors and get what is good from them?

Dec. 14.-- The analogy between the spiritual and the natural laws impressed me much. More or less we are parasites in society. And further we are impressed by religious scenes. They are conducive to goodness and also to error. There was brought to our notice the littleness and selfishness of man. There are persons whose sole delight is annoyance. Another principle may be laid down: Sentiment runs from one extreme to another. After a storm there is always a calm. Our home was visited by Misses Dora Greer and Sofie (?) Eller.

Dec. 29.-- Had a pleasant day at singing. There is a beauty in the theory. A boy thinks that he is about the smartest thing on legs. A slimy grin bestuds his face and a _____ look adorns his countenances. Power and wisdom are displayed in his ambulations. In his imagination plumes of knights bedeck his brow. His eyes are as jewels in a pumpkin, his legs are as sticks in a squash, his meandering body adjusts itself as a rainbow and his smarty laugh is like the wind blowing a splinter on the fence.

Dec. 30.-- Went early to J. F. Egger’s. From there we went to A. J. Campbell’s and had some pictures made. Attended singing awhile. Some girls think that they are imbued with beauty and style. With them a giggle is a synonym for attractiveness. Alas! It is vanity and pettishness. There [sic] life never rises so high as their laughter. In the afternoon it rained. We had a pleasant time talking and discussing various topics with friend Eggers.

Dec. 31.-- Had a pleasant morning. Came home and did some work. In the afternoon attended singing. A man can cultivate the habit of grumbling until he is easily confused at the least thing.
This is the close of another year. This has been the saddest year of my life. Many regrets and misfortunes have come my way, but God has been good to me in his bountiful mercies. He has cared and protected me in misery and misfortune. Let praise be sung unto Him for his goodness. Father, we ask thy guidance throughout the coming year. Give us work for thee and faith in the cross.

Poor Silas Marner had a lot that many of the human family are acquainted with: Over-confidence in a friend--leads often to ruin. How wicked and contemptible are many villains [sic]! They stain and smear the character with a heart full of selfishness. This is often done under a cloak of religion. Many would destroy the innocent to carry out a wolfish design-- a hoggish appetite-- a ravenous desire. The uncounted numbers that have suffered by the ambition of a wicked heart. The covetousness of an overwrought zeal for self and the cruel hand of a friend. Depravity! Depravity!! Thou seem to hold the scepter of envy and debauchery. Who can withstand thee. None; but He who calms the seas and rides on the waves.
DECEMBER

Dec. 1.-- When there is an interest a man never tires in school work. He becomes lost as to time and great themes absorb his time. Amid flowers there are some thorns. A boy loves to do little smart things-- things that annoy and unnerve the most conservative. Had a pleasant night with S. J. Price. We laughed at the many jokes that were told about stock. Deep and serious thoughts penetrated my mind. Enthusiasm and regret, sorrow and remorse roamed through my weary and broken soul-- a soul with a chasm. Can this ever be bridged? The block that filled the chasm is gone-- forever gone-- never to return in time. An object of beauty, a being of devotion, a bundle of affections has gone into a realm of darkness, as it were, to me. How dark my life, how gloomy my existence! The weary one must plod on and on-- longing and longing-- but never to be satisfied. These are sad revels, but real and intense.

Dec. 2.-- Came early to school. The day has been interesting. Interest in school is good. Flights of delights and pangs of remorse dart into my soul. There seems to be no rest, except in toil. Existence is a heavy drag sometimes, but often sweet thoughts come my way. Thoughts appear and sweeten life’s rugged way.

Dec. 3.-- The day has been pretty. The school has been encouraging. We had a spelling match. Arrived home late. We had several visitors.

Dec. 6.-- Arose this morning and went to the schoolhouse. Taught awhile and transacted some road business. Some men think if they can curse loud that all knowledge lays within their brains. Poor ignorant beings, they know not their condition. They are objects of pity, so wretched that the tears of angels would melt at the sight. Such raises a righteous indignation in a man. The evening was pleasant in the schoolroom. Issued a warrant for a man. Studied at night.

Dec. 7.-- There was an awfully bad storm this morning. On the account of it the school was small. At night read and prepared a manuscript for the printer.

Dec. 8.-- The day has been cold. The schoolroom has not been pleasant. At night read in “Silas Marner”. A little child fills a chasm in his dark life. We are often despondent. How cruel the world seems! This often seems true, because it is a thought of our own minds.
Dec. 9.-- Today has been awfully cold. The school room has not been pleasant. Had a visit from Walter Icenhour. The story of “Silas Marner” is a good one. The life of the man is made sweet by the presence of a sweet woman that calls him, “Father”. This story teaches that a secret will out in some way.

Dec. 10.-- Today has been cold. Had a spelling match in school. Started home. Fixed some legal papers. Attended church at Union.

Came to Mabel and stopped. Arrived home late. Attended a singing at Henley Greer’s. There were several people present. One old lady came along behind with a shrieking tune.

Dec. 22.-- Remained home before noon. The day has been awfully cold. Afternoon went to the store. Some westerners made their appearance. All knowledge and dignity and manhood are not bestowed upon a person just because he has crossed the Rocky Mountain. Arrived home late. Was not well at night.

Dec. 23.-- Remained at home the greater part of the day. Visited Mr. Warren’s. Have not been well.

Dec. 24.-- Started early for Silverstone. Had trouble with a blister on my heel. Heard “Squealing” Andy Wilson turn loose his mighty knowledge of things in general-- and especially on his neighbors and farming. Stopped at Solomon Eggers. Heard a good deal of clash in Mabel. There was some shrewdness displayed at a sale. A crowd of silly girls were displaying their hatefulness at the store. How contemptible are their laughters and screams! Arrived home late.

Dec. 25.-- This [is] a blustry Christmas. Have been at home the entire day. Read in Cooper’s “Last of the Mohicans”. It is an enthusiastic story. The sagacity of an Indian is marvelous. He is schooled in nature’s great book. As usual Christmas is dull and not exciting to me. Why do people want to rave like a heathern and jabber like a Dago? It is or should be a period of peace and not of unusual demonstration. The spirit of Christmas in the true sense ought to reign and not a “hurly-burly”. Peace and good will is its mission to man.

Dec. 26.-- Today has been snowy and blustry. Did not go to Sunday School. Started but got in the branch and returned. Visited Mr. Warren’s and Henley Greer’s.

Dec. 27.-- Went to Mabel this morning. Sat on a case with Esq. A. W. Smith. The sun has shined. Snow has covered the ground.

Dec. 30.-- It has been cold today. Have read some. The sun shined a little while in the afternoon.
Dec. 31.-- Went to Mabel this morning. Payed off a note in the evening. The sun has shined today. It is much warmer. The old year is almost gone. It has been a tough year with me. There has been much trouble and weary. Besides this there has been much happiness. There are many regrets of things undone. Our errors in the past are easily seen. Oh! That we had the for-seeing eye that we could see into the future! In all God has been merciful to me. He has given me health, strength and a vigorous mind, for all we are thankful.
